

Kangra - Himachal Pradesh

V1 — Authentic Style

Universal Hard Prompt

Create the image in the authentic visual logic of Kangra painting from Himachal Pradesh, a late Pahari lyrical court painting tradition known for delicate refined line, serene graceful figures, softer less-intense color, lush green hill landscapes, and poetic-devotional themes, especially the world of Radha and Krishna.

Do not treat this as generic Indian miniature painting, generic Krishna poster art, Mughal realism, decorative folk painting, or surface texture styling. Rebuild the entire image as if it is a true Kangra pictorial world.

The image must read first as:

- refined lyrical miniature painting
- delicate controlled line
- serene stylized human type
- soft fresh color behavior
- lush green natural environment
- poetic devotional or romantic narrative atmosphere

WHOLE-FRAME RULE:

Every visible element must belong to the same Kangra system.

- all faces must become Kangra-like faces: soft, refined, serene, calm, elegant
- all bodies must become lyrical, poised, courtly, and graceful rather than realistic or theatrical
- all gestures must become poetic and rasa-bearing, not casual modern realism
- all trees, hills, rivers, flowering plants, and gardens must become Kangra landscape forms
- all architecture must become painting-born architecture, not realism-first buildings
- all spacing, grouping, and emotional atmosphere must belong to one lyrical pictorial world
- no important element may remain in another visual language

FORM RULE:

Use graceful figure construction, delicate contour, calm posture, soft silhouette, and refined pictorial organization. Do not use muscular realism, harsh anatomy, thick outlines, or stiff theatrical poses.

FACE RULE:

Use soft refined faces, elongated or lotus-like eyes, calm expressions, elegant profile and frontal handling appropriate to miniature painting, emotional serenity stronger than realism.

SPACE RULE:

Use lyrical pictorial space with gentle recession and natural but painting-controlled depth. Do not use hard cinematic perspective or realism-first depth construction.

LANDSCAPE RULE:

Use lush hill-country greenery, foliage, flowering plants, streams, open sky, and poetic natural settings. The environment must be active and lyrical, not neutral background.

COLOR RULE:

Use softer, fresher, less intense colors. Green is important and should feel alive in multiple natural shades. Keep the palette luminous but controlled, never harsh or over-saturated.

SHADOW RULE:

Use soft painting-led tonal modeling only. Do not use dramatic realism-first shadow or cinematic chiaroscuro.

NARRATIVE RULE:

The image should feel devotional, poetic, romantic, lyrical, or rasa-oriented. Even if the exact subject is secular, the emotional and compositional handling must still feel Kangra-born.

NEGATIVE RULE:

- no generic miniature look
- no Mughalized realism
- no Krishna calendar art
- no texture transfer only
- no costume transfer only
- no harsh color
- no thick decorative outline
- no generic nature background
- no realism-first shadow
- no poster-like prettiness

OUTPUT GOAL:

The final result must feel like a true Kangra painting world where figure, line, color, space, landscape, and emotion are all rebuilt from the base upward through Kangra logic.

V2 — Artisan Translation

Universal Hard Prompt

Create the image in an authentic handcrafted dimensional translation of Kangra painting from Himachal Pradesh, where the full Kangra grammar remains primary but the pictorial world becomes richer in depth, softness, environmental layering, and tactile painted presence.

Do not treat this as a realistic Indian historical scene with Kangra styling. Do not use texture transfer. Rebuild the image so that the Kangra system itself generates the dimensional world.

Keep the full source grammar active:

- delicate refined line
- serene graceful figures
- soft fresh less-intense color
- lush green environment
- poetic devotional / romantic atmosphere
- miniature-painting image logic

WHOLE-FRAME RULE:

Everything must still belong to one Kangra-built world.

- groupings must remain lyrical and emotionally modulated
- no important element may default to normal realism

ALLOW THESE TO BECOME RICHER:

- figure depth
- environmental layering
- atmosphere
- spatial softness
- tonal transitions
- painting tactility
- narrative breathing room

SPACE RULE:

Use dimensional pictorial space, not realism-first cinematic space. Depth is allowed, but it must still feel painted and lyrical.

Use soft controlled tonal shaping that supports pictorial volume without becoming realism-first lighting.

NEGATIVE RULE:

- no realistic Indian fantasy scene
- no miniature costume on realistic bodies
- no texture overlay only
- no realism-first landscape
- no hard shadows
- no poster-like devotional sentiment
- no generic “pretty Indian painting” mood

V3 — 3D / Realistic / Cinematic Translation

Universal Hard Prompt

Create a fully volumetric cinematic world generated by Kangra painting logic from Himachal Pradesh, where the whole reality feels born from delicate line, serene figures, soft lyrical color, lush green landscape, and poetic-devotional image intelligence rather than merely decorated by miniature-style surface cues.

Do not assume prior knowledge of the style. The core system is this:

Kangra is a late Pahari lyrical painting tradition associated with refined delicate line, soft less-intense colors, serene graceful human types, lush greenery, and Krishna-centered poetic-devotional themes.

This version must not become:

- realistic Indian historical fantasy
- generic romantic miniature world
- cinematic realism with Kangra costume accents
- green scenic realism with miniature faces
- devotional poster realism

Instead, let the entire world be generated by Kangra pictorial intelligence.

WHOLE-FRAME WORLD RULE:

Every visible element must belong to the same Kangra-built world.

- figures must be Kangra-built in face, body, posture, and emotional reading
- gestures must be lyrical and rasa-bearing
- landscape must be Kangra landscape in form, spacing, vegetation, and emotional tone

- architecture must belong to miniature-painting logic, not realism architecture
- color must remain soft, fresh, lyrical, and painting-led
- shadow must remain softened and integrated into pictorial structure
- grouping must remain poetic and devotional / romantic, not staged like realism cinema
- no important element may remain realism-first underneath

ORIGIN-SYSTEM MEMORY RULE:

Even in a fully cinematic world, the image must still visibly remember:

- delicate line
- serene stylized faces
- graceful figure construction
- lush green hill-garden environment
- softer lyrical palette
- poetic devotional painting atmosphere

SPACE RULE:

Allow full spatial depth, cinematic immersion, environmental layering, and world coherence, but keep the space generated by Kangra pictorial logic rather than realism-first camera logic.

SHADOW RULE:

Use full-world shadow only insofar as it remains subordinate to Kangra softness and pictorial emotional control. No harsh realism lighting takeover.

NEGATIVE RULE:

- no realistic fantasy world with miniature styling
- no texture transfer
- no costume transfer
- no green scenic realism
- no Mughal realism drift
- no generic mythological art
- no hard cinematic shadow
- no realism stronger than Kangra image logic

OUTPUT GOAL:

The final result must feel like Kangra painting became an inhabitable cinematic world, with full transformation of form, shadow, space, grouping, landscape, and emotion.
