

Rangwali Pichhoda - Uttarakhand

V1 — Authentic Style

Universal Hard Prompt

Create an image in pure authentic source-truth Rangwali Pichhoda from Uttarakhand.

Treat this as a true Kumaoni ceremonial cloth tradition, not as a generic yellow bridal dupatta, not as a printed festive stole, not as a fashion accessory, and not as a decorative ethnic fabric with sacred motifs added later.

Build the image from the true grammar of Rangwali Pichhoda:

yellow or yellow-orange sacred cloth field,
red symbolic marking system,
central Swastik as the commanding centerpiece,
four-direction sacred organization around the center,
Sun and goddess and conch shell and bell as directional symbolic anchors,
dot-field and floral blessing-field enrichment,
auspicious women's ceremonial-wear identity,
and whole-cloth Kumaoni ritual coherence.

The image must feel like it genuinely belongs inside the original Rangwali Pichhoda tradition.

Keep the whole frame inside one ceremonial-cloth-authored visual language.

The cloth itself must be source-born:

ritual textile first,
sacred field first,
symbolic marking second,
not boutique fashion fabric,
not generic wedding dupatta,
not all-over print design.

Field logic must remain source-faithful:

the yellow field must feel prepared, auspicious, warm, and ceremonially charged,
not decorative-only,
not pastel-fashion,
not synthetic-bright designer fabric.

Red-mark logic must remain source-faithful:

the red must feel symbolic, blessing-bearing, and compositionally active,
not random pattern,
not decorative accent only,
not generic festive print language.

Center logic must remain source-faithful:
the Swastik must be dominant,
stable,
sacred,
structurally governing the cloth,
not tiny,
not casual,
not one motif among many.

Quadrant logic must remain source-faithful:
the four surrounding sacred elements must feel directionally organized around the center,
balanced,
intentional,
and ceremonially placed,
not randomly scattered icons.

Support-field logic must remain source-faithful:
red dots and floral enrichment must feel like blessing-field expansion around the sacred center,
not polka-dot fashion print,
not filler decoration,
not surface noise.

Wear-use logic must remain source-faithful:
women's auspicious ceremonial cloth,
worn for marriage and namkaran and puja and sacred household occasions,
not runway styling,
not fashion catalog accessory logic.

Color logic must remain source-faithful:
yellow or yellow-orange field with red symbolic marking as the dominant native discipline,
no multicolor experimentation,
no decorative palette drift,
no designer reinterpretation stronger than the native ceremonial code.

Do not add:
generic bridal styling,
printed ethnic dupatta behavior,
commercial festewear logic,
symbol-scatter layouts,
fashion-shoot aesthetics,
or any second textile language stronger than Rangwali Pichhoda.

The final result must feel like true Kumaoni Rangwali Pichhoda at source-truth level, not a modern ceremonial accessory merely inspired by it.

Reusable Variable Template

Create [SUBJECT / CEREMONIAL CLOTH FIELD / RITUAL TEXTILE WORLD / SACRED DRAPED SCENE] using the authentic source-truth grammar of Rangwali Pichhoda from Uttarakhand.

Core style system to preserve:

Kumaoni ceremonial cloth identity,
yellow or yellow-orange sacred field,
red symbolic marking system,
central Swastik authority,
four-direction sacred organization,
dot/floral blessing-field enrichment,
auspicious women's ritual-use identity,
whole-cloth Rangwali Pichhoda coherence.

Translate the image like this:

[MAIN CLOTH / MAIN FIELD / MAIN CEREMONIAL SURFACE] becomes a Rangwali-Pichhoda-born sacred textile presence built through yellow field authority, red symbolic marking, and center-led ritual organization.

[SECONDARY SURFACES / SUPPORTING ELEMENTS] become supporting Rangwali Pichhoda presences obeying the same sacred-cloth logic.

[BACKGROUND / WORLD / SURROUNDING AREAS] becomes a Rangwali-Pichhoda-authored ceremonial environment rather than neutral realism or generic festive-textile styling.

Keep:

sacred cloth identity,
yellow-red auspicious code,
dominant central Swastik,
balanced quadrant organization,
blessing-field support,
ceremonial women's-use authority,
Kumaoni Rangwali Pichhoda coherence.

Avoid:

generic bridal dupatta styling,
printed ethnic stole logic,
polka-dot fashion cloth,
commercial wedding textile behavior,
or a realistic world with Rangwali Pichhoda added afterward.

The final image must feel like the Rangwali Pichhoda tradition itself authored the full ceremonial textile world.

Image-to-Image

Convert this source image into an authentic source-truth Rangwali Pichhoda world from Uttarakhand.

Preserve the source image's core subject count, structural readability, and main visual organization, but rebuild the entire image through true Rangwali Pichhoda grammar.

Replace ordinary image logic with:
yellow or yellow-orange sacred cloth field,
red symbolic marking,
central Swastik authority,
four-direction sacred symbolic organization,
dot/floral blessing-field enrichment,
auspicious ceremonial-cloth identity,
and full Rangwali Pichhoda coherence.

Do not simply make the cloth yellow.
Do not merely add red dots and sacred motifs.
Do not turn the source into a generic festive dupatta.

If the source contains figures, objects, architecture, space, or background, rebuild them through Rangwali Pichhoda ceremonial-cloth logic:
sacred field,
center-led textile order,
quadrant symbolism,
blessing-field expansion,
and Kumaoni auspicious-use coherence.

Do not leave the environment as neutral realism.
Do not make it behave like a wedding-fashion textile or printed ethnic accessory.

The final image must feel like a genuine Rangwali Pichhoda ceremonial world from Uttarakhand, not a modern image decorated with bridal yellow-red motifs.

V2 — Artisan Translation

Universal Hard Prompt

Create an image in V2 = authentic handcrafted dimensional translation of Rangwali Pichhoda from Uttarakhand.

This is not a literal fabric mockup.
This is not a product shot of a dupatta.
This is not bridal styling.

This is not handmade-print realism only.
This is not a prettier fashion version of V1.

Preserve the same deep Rangwali Pichhoda grammar unchanged:
Kumaoni ceremonial cloth identity,
yellow or yellow-orange sacred field,
red symbolic marking system,
central Swastik authority,
four-direction sacred organization,
dot/floral blessing-field enrichment,
auspicious women's ritual-use identity,
and whole-cloth ceremonial coherence.

Now re-author that same grammar into a richer, more inventive, more dimensional 2D + 3D hybrid image-form.

The added dimensionality must come from Rangwali Pichhoda's own logic:
sacred center dominance,
quadrant-to-center relation,
symbol-to-field hierarchy,
cloth-as-blessing-surface presence,
red-mark placement rhythm,
dot/floral support-field expansion,
ritual cloth objecthood,
and full-frame ceremonial textile intelligence.

Do not only improve texture.
Do not only increase cloth realism.
Do not only make the drape prettier.
Transform the full image logic:
form,
construction,
grouping,
silhouette,
objects,
environment,
spatial organization,
and full-frame visual language.

If figures appear, they must not remain generic humans wearing a traditional dupatta.
They must become Rangwali-Pichhoda-born presences:
face logic influenced by ceremonial symbolic simplification,
body logic shaped by center-led sacred-cloth hierarchy,
silhouettes built through ritual textile structure rather than fashion styling,
objects and props translated into the same auspicious cloth-symbol system.

If environment appears, it must not remain neutral realism.
It must already begin to feel re-authored by Rangwali Pichhoda:

sacred-cloth world logic,
center-led spatial rhythm,
quadrant-based symbolic organization,
blessing-field expansion,
not just normal scenery with a ceremonial cloth somewhere inside it.

Believable depth must come from Rangwali Pichhoda itself,
not from default realism,
not from bridal editorial rendering,
not from generic 3D fabric shading.

Keep:
source-rooted Rangwali Pichhoda identity,
sacred center authority,
quadrant discipline,
yellow-red auspicious code,
creative artisan translation,
ceremonial women's cloth authorship,
full-frame style control.

Do not allow:
product mockup logic,
bridal fashion styling,
commercial festewear language,
generic symbolic print behavior,
all-over decorative textile drift,
or a normal image underneath with Rangwali Pichhoda decoration added later.

The final result must feel like Rangwali Pichhoda itself has creatively re-authored the image into a richer, more dimensional, more inventive ceremonial textile world while still remaining fully Rangwali-Pichhoda-born.

Reusable Variable Template

Create [SUBJECT / SCENE / CEREMONIAL CLOTH FIELD / SACRED TEXTILE WORLD]
in V2 = authentic handcrafted dimensional translation of Rangwali Pichhoda from
Uttarakhand.

Preserve these unchanged deep style-core rules:
Kumaoni ceremonial cloth identity,
yellow or yellow-orange sacred field,
red symbolic marking system,
central Swastik authority,
four-direction sacred organization,
dot/floral blessing-field enrichment,
auspicious women's ritual-use identity,

whole-cloth Rangwali Pichhoda coherence.

Translate the image like this:

[MAIN FIGURE / MAIN OBJECT / MAIN FIELD] becomes a Rangwali-Pichhoda-born dimensional presence built through sacred field logic, center-led organization, and ceremonial textile authority.

[SECONDARY FIGURES / OBJECTS / SUPPORTING ELEMENTS] become supporting Rangwali Pichhoda presences governed by the same cloth-symbol system.

[ENVIRONMENT / BACKGROUND / WORLD] becomes a creatively re-authored Rangwali Pichhoda space where grouping, depth, and spatial rhythm come from sacred center-and-quadrant cloth logic rather than neutral realism.

Increase:

dimensional presence,
center-to-field hierarchy,
quadrant clarity,
symbol-to-cloth integration,
blessing-field organization,
ritual textile objecthood,
inventive Rangwali Pichhoda world-building.

Do not lose:

ceremonial cloth identity,
yellow-red sacred code,
dominant central Swastik,
balanced sacred quadrants,
support-field enrichment,
women's auspicious-use authority,
whole-cloth Rangwali Pichhoda control.

Avoid:

fabric mockup,
bridal styling,
print-only realism,
commercial festewear language,
generic dupatta behavior,
or a realistic world with Rangwali Pichhoda added afterward.

The final image must feel like the same Rangwali Pichhoda grammar has been creatively translated into a richer, more dimensional, more scene-capable visual form.

Image-to-Image

Convert this source image into a V2 authentic handcrafted dimensional Rangwali Pichhoda world from Uttarakhand.

Preserve the source image's main action, subject count, pose relations, and overall readability, but rebuild the entire image through Rangwali Pichhoda grammar translated into a richer, more dimensional, more inventive hybrid image-form.

Replace ordinary image logic with:
yellow or yellow-orange sacred cloth field,
red symbolic marking,
central Swastik authority,
four-direction sacred organization,
dot/floral blessing-field enrichment,
auspicious ceremonial-cloth identity,
and full-frame Rangwali Pichhoda coherence.

Do not simply add a sacred motif to a dupatta.
Do not just improve textile texture.
Do not make it a product-style ceremonial fabric render.

Rebuild the image so that:
forms are organized through Rangwali Pichhoda's own sacred cloth grammar,
depth comes from center-to-field hierarchy and quadrant symbolism,
objects and environments begin to behave like a Rangwali-Pichhoda-authored world,
and the whole frame feels generated by Rangwali Pichhoda itself rather than realism with a wedding cloth added on top.

If figures appear, rebuild them as Rangwali-Pichhoda-born presences rather than generic bodies in festive styling.
If environments appear, rebuild them through Rangwali Pichhoda visual ontology rather than neutral realism.

The final image must feel like a true creative artisan translation of Rangwali Pichhoda into a richer dimensional ceremonial textile world, not a normal image with yellow-red sacred cloth decoration.

V3 — 3D / Realistic / Cinematic Translation

Universal Hard Prompt

Create an image in V3 = fully resolved believable real-world 3D translation of Rangwali Pichhoda from Uttarakhand while keeping the same source grammar unchanged.

This is not realism replacing style.
This is not bride realism.
This is not wedding fashion editorial.
This is not couture festewear styling.
This is not a normal world with a Rangwali Pichhoda added afterward.

Preserve the same deep Rangwali Pichhoda grammar unchanged:
Kumaoni ceremonial cloth identity,
yellow or yellow-orange sacred field,
red symbolic marking system,
central Swastik authority,
four-direction sacred organization,
dot/floral blessing-field enrichment,
auspicious women's ritual-use identity,
and whole-cloth ceremonial coherence.

Now push that same grammar into its most complete, most fully embodied, most fully resolved, most fully inhabitable dimensional world state.

The entire visible world must be generated by Rangwali Pichhoda logic.

That means the transformation must affect everything:

faces,
bodies,
hands,
feet,
hair,
posture,
gesture,
props,
objects,
ground,
architecture,
plants,
sky treatment,
empty space,
environment rhythm,
foreground,
midground,
background,
and the full-frame visual language.

Nothing important may remain generic realism.

Rangwali Pichhoda must control reality through its own logic:
yellow sacred field authority,
red symbolic marking,
dominant Swastik center,
four-direction sacred order,
blessing-field expansion,
ceremonial women's textile coding,
and full-world Kumaoni ritual-cloth ontology.

Believable here must mean:

believable volume,
believable spatial relation,
believable material embodiment,
believable environmental completion,
believable inhabitable world logic.

It must not mean:

bridal photography,
fashion catalog realism,
couture styling,
normal anatomy wearing a yellow-red dupatta,
generic wedding design,
or realism-first image making.

If figures appear, they must be fully Rangwali-Pichhoda-born:
face construction shaped by ceremonial symbolic simplification,
body logic shaped by sacred center-led cloth hierarchy,
silhouette logic shaped by ritual textile organization rather than fashion drape styling,
gesture and posture integrated into the same Rangwali Pichhoda world system.

If environment appears, it must also be fully Rangwali-Pichhoda-born:
ground, structures, objects, space, and atmosphere must all belong to one uninterrupted
Rangwali Pichhoda world,
not a normal realistic environment underneath.

If you remove decorative cues, the image should still feel Rangwali Pichhoda through:
form construction,
body logic,
object logic,
environment logic,
spatial organization,
center-led sacred cloth grammar,
and full-world visual ontology.

Keep:

same deep Rangwali Pichhoda grammar,
full world embodiment,
full environmental completion,
stronger figure-ground hierarchy,
stronger spatial separation,
stronger object presence,
stronger total-frame style control.

Do not allow:

bridal realism,
fashion editorial language,
product mockup logic,
generic sacred-print textile behavior,

commercial festivewear styling,
or any second textile language stronger than Rangwali Pichhoda.

The final result must feel like Rangwali Pichhoda itself has taken over the whole visible world and fully generated reality through Kumaoni ceremonial cloth logic, not like realism with Rangwali Pichhoda decoration.

Reusable Variable Template

Create [SUBJECT / SCENE / OBJECT / WORLD] in V3 = fully resolved believable real-world 3D translation of Rangwali Pichhoda from Uttarakhand.

Keep these unchanged deep style-core rules:

Kumaoni ceremonial cloth identity,
yellow or yellow-orange sacred field,
red symbolic marking system,
central Swastik authority,
four-direction sacred organization,
dot/floral blessing-field enrichment,
auspicious women's ritual-use identity,
whole-cloth Rangwali Pichhoda coherence.

Translate the image like this:

[MAIN FIGURE / MAIN OBJECT / MAIN FIELD] becomes a fully embodied Rangwali-Pichhoda-born presence generated through sacred cloth logic, center-led organization, quadrant symbolism, and full ceremonial world control.
[SECONDARY FIGURES / OBJECTS / SUPPORTING ELEMENTS] become equally style-born Rangwali Pichhoda presences.

[ENVIRONMENT / BACKGROUND / WORLD] becomes a complete inhabitable Rangwali Pichhoda world where spatial structure, environmental rhythm, and full-scene organization are all controlled by the same Kumaoni ceremonial-cloth grammar.

Increase:

full world embodiment,
full environmental translation,
stronger spatial relation,
stronger figure-ground separation,
stronger material presence,
stronger world coherence,
stronger full-frame Rangwali Pichhoda control.

Do not lose:

ceremonial cloth identity,
yellow-red sacred code,
central Swastik authority,
balanced four-direction organization,

support-field blessing logic,
women's auspicious-use authority,
whole-world Rangwali Pichhoda ontology.

Avoid:

bridal realism,
fashion styling,
product render logic,
generic sacred-print dupatta language,
commercial wedding textile behavior,
or a normal world with Rangwali Pichhoda decoration added afterward.

The final image must feel like the same deep Rangwali Pichhoda grammar has fully generated an entire believable world.

Image-to-Image

Convert this source image into a V3 fully resolved believable real-world Rangwali Pichhoda world from Uttarakhand.

Preserve the source image's main action, subject count, pose relations, and readable structure, but rebuild all visible forms through fully embodied Rangwali Pichhoda grammar.

Replace ordinary realism with:

yellow or yellow-orange sacred cloth field,
red symbolic marking,
central Swastik authority,
four-direction sacred organization,
dot/floral blessing-field enrichment,
auspicious ceremonial-cloth identity,
and full-world Rangwali Pichhoda coherence.

Do not simply place a yellow-red dupatta on a figure.

Do not just convert the fabric into a richer ceremonial textile.

Do not leave the environment generic.

Rebuild the full image so that:

faces, bodies, objects, props, and environment all belong to the same Rangwali Pichhoda ceremonial-cloth ontology,
depth comes from Rangwali Pichhoda's own sacred center, quadrant order, and blessing-field structure,
space is organized through center-led symbolic cloth logic,
the world becomes fully inhabitable but remains completely Rangwali-Pichhoda-born,
not realism-first.

If any part of the frame remains normal realism underneath, the conversion has failed.

The final image must feel like Rangwali Pichhoda itself has fully generated the entire visible world, not like a normal image decorated with Kumaoni yellow-red ceremonial motifs.
