

Ordinary,unrestricted shawl branch - Nagaland

V1 — Authentic Style

Universal Hard Prompt

Create an image built from the authentic ordinary / unrestricted shawl world of Nagaland. Do not treat this as generic simple handloom, generic plain tribal wrap, or a normal world with a modest shawl added later. Build the entire image as if it is generated by a practical woven body-cloth system where measured stripe-and-band discipline, restrained tribe-readable order, everyday clarity, and handloom structure control every decision.

The image must obey this branch law:

- the world is generated from ordinary woven order, not from spectacle or decorative pattern
- cloth must remain structured, measured, and publicly legible without prestige inflation
- stripe, band, interval, and field calm remain primary
- body relation must feel practical and real, not theatrical banner display
- every major form must feel governed by restrained woven order
- the world must feel culturally specific without elite exaggeration

Translate the full world through this ordinary-cloth system:

- shape must become measured, banded, repeatable, and disciplined
- form must become handloom-body-cloth form rather than fashion form
- space must become practical body-cloth space rather than scenic or ceremonial spectacle space
- light must reveal stripe direction, woven clarity, and stable field intervals
- shadow must support drape and measured structure without turning the scene dramatic
- value must remain calm, clear, and organizational
- movement must feel like real body use, practical cloth shift, and woven continuity
- environment must also obey ordinary woven law: characters, animals, props, architecture, trees, mountains, and ground must all feel shaped by measured stripe-band order and practical handloom calm

Keep the branch source-rooted:

structured unrestricted shawl logic, restrained woven order, practical body-cloth clarity, tribe-readability, and handloom discipline.

Avoid:

generic plain shawl, anonymous handmade fabric, false warrior motifs, generic ethnic minimalism, and ordinary realism with one simple shawl inserted.

The final result must feel like a true Nagaland ordinary / unrestricted shawl world: structured, calm, handwoven, practical, tribe-readable, and fully translated across the whole frame.

Reusable Variable Template

Create an image built from the authentic ordinary / unrestricted shawl world of Nagaland. Do not treat this as generic simple handloom, generic plain tribal wrap, or a normal world with a modest shawl added later. Build the entire image as if it is generated by a practical woven body-cloth system where measured stripe-and-band discipline, restrained tribe-readable order, everyday clarity, and handloom structure control every decision.

The image must obey this branch law:

- the world is generated from ordinary woven order, not from spectacle or decorative pattern
- cloth must remain structured, measured, and publicly legible without prestige inflation
- stripe, band, interval, and field calm remain primary
- body relation must feel practical and real, not theatrical banner display
- every major form must feel governed by restrained woven order
- the world must feel culturally specific without elite exaggeration

Translate the full world through this ordinary-cloth system:

- shape must become measured, banded, repeatable, and disciplined
- form must become handloom-body-cloth form rather than fashion form
- space must become practical body-cloth space rather than scenic or ceremonial spectacle space
- light must reveal stripe direction, woven clarity, and stable field intervals
- shadow must support drape and measured structure without turning the scene dramatic
- value must remain calm, clear, and organizational
- movement must feel like real body use, practical cloth shift, and woven continuity
- environment must also obey ordinary woven law: characters, animals, props, architecture, trees, mountains, and ground must all feel shaped by measured stripe-band order and practical handloom calm

Keep the branch source-rooted:

structured unrestricted shawl logic, restrained woven order, practical body-cloth clarity, tribe-readability, and handloom discipline.

Avoid:

generic plain shawl, anonymous handmade fabric, false warrior motifs, generic ethnic minimalism, and ordinary realism with one simple shawl inserted.

The final result must feel like a true Nagaland ordinary / unrestricted shawl world: structured, calm, handwoven, practical, tribe-readable, and fully translated across the whole frame.

Image-to-Image

Convert this source image into an authentic ordinary / unrestricted Naga shawl world.

Preserve the source image's subject count, core action, main relationships, and readable scene meaning, but rebuild the entire image through restrained woven body-cloth logic. Do not simply add simple stripes or plain handloom fabric. Reconstruct all visible forms so that shape, form, light, shadow, value, movement, and environment obey measured ordinary-cloth law.

The transformed image must become:

- structured rather than merely simple
- practical rather than generic
- handloom-built rather than plain-fabric-styled
- tribe-readable rather than anonymous
- calm rather than prestige-inflated
- unified across figures, animals, props, architecture, terrain, and background

Do not let only the shawl become branch-correct while the rest of the frame stays generic.

Do not let simplicity erase cultural structure.

Do not let realism overpower the branch's woven calm.

The final result must feel like the source image has been rebuilt by an ordinary Naga shawl civilization, not decorated with simple handloom cloth.

V2 — Artisan Translation

Universal Hard Prompt

Create a creative 2D + 3D image world rooted in the ordinary / unrestricted shawl grammar of Nagaland. This must not become generic quiet textile fantasy, a normal stylized world with simple stripes, or minimalist handloom decor. It should feel like authentic everyday woven order has expanded into a broader world where characters, animals, architecture, mountains, props, and environment are all rebuilt through measured stripe-band law and practical body-cloth calm.

Keep the deep structure unchanged:

- restrained woven order remains primary
- practical body-cloth clarity remains central
- measured intervals remain stronger than spectacle
- handloom-built calm remains source-rooted
- non-prestige structure remains visible
- the whole frame remains generated by ordinary-shawl law

Now let the world become richer:

- characters can be built from measured intervals, quiet stripes, and stable woven repetition
- animals can inherit restrained band rhythm and practical field clarity

- architecture can behave like calm structured woven intervals rather than grand ceremonial fields
- mountains, trees, ground, and sky can become organized through quiet stripe logic and measured divisions
- shadows can deepen while preserving woven calm
- space can become a world of practical order and stable woven rhythm rather than generic scenic atmosphere

Translate everything:

color, shape, line, form, light, shadow, volume, depth, character, animal, object, architecture, environment, and total scene behavior must all be rebuilt through ordinary-shawl grammar.

Avoid:

minimalist textile mood, simple-pattern fantasy, quiet handloom decor, generic striped worlds, false prestige structure, and ordinary stylized worlds with modest shawls inserted.

The final result must feel like the ordinary / unrestricted shawl branch itself has generated an imaginative unified 2D + 3D world.

Reusable Variable Template

Create [SUBJECT / SCENE] as a creative 2D + 3D translation rooted in the ordinary / unrestricted shawl world of Nagaland.

Preserve these style-core rules:

- measured woven order remains primary
- practical body-cloth clarity remains central
- restrained stripe-band discipline remains structural
- handloom calm remains source-rooted
- non-prestige order remains visible
- the whole frame remains generated by ordinary-shawl law

Translate the scene like this:

- [MAIN SUBJECT] becomes a figure built from measured interval and restrained woven structure rather than generic realism
- [SECONDARY SUBJECTS] obey the same practical stripe-band calm
- [ANIMALS / OBJECTS / PROPS] become shaped by quiet repeated field order and everyday cloth logic
- [ARCHITECTURE / MOUNTAINS / TREES / GROUND / BACKGROUND] become organized through stable woven divisions, practical clarity, and restrained rhythm
- [ENVIRONMENT] becomes a world of everyday handloom order and calm readability
- [LIGHT / SHADOW] reveal structure without creating false prestige drama
- [SPACE / DEPTH] become measured field-space and practical woven space rather than ordinary scenic depth
- [MOVEMENT / ACTION] become ordinary cloth motion, body-use continuity, and practical woven interaction

Keep:

measured intervals, practical order, woven calm, handloom dignity, non-prestige clarity.

Avoid:

generic quiet textile fantasy, minimalist decor worlds, false warrior emphasis, ordinary stylized scenes, and prop-only modest shawls.

The final result must feel like the world was redesigned by ordinary Naga shawl intelligence.

Image-to-Image

Convert this source image into a creative 2D + 3D ordinary / unrestricted Naga shawl world.

Preserve the source image's core action, readable relationships, and main scene meaning, but rebuild every visible element through restrained woven body-cloth logic. Do not stop at adding subtle stripes or simple handloom texture. Reconstruct shape, form, light, shadow, volume, depth, character design, environment, and spatial behavior so the whole image behaves like a world generated by measured everyday shawl law.

The transformed image must become:

- ordinary-structured rather than plain-decorated
- practical rather than generic
- handloom-built rather than quietly styled
- calm rather than prestige-inflated
- unified across people, animals, props, landforms, architecture, and background

Do not let only selected garments become branch-correct.

Do not let the environment remain generic.

Do not let simplicity replace structure.

The final result must feel like ordinary Naga shawl culture has expanded into a full imaginative world-state.

V3 — 3D / Realistic / Cinematic Translation

Universal Hard Prompt

Create a believable full 3D dimensional world generated from the ordinary / unrestricted shawl grammar of Nagaland. This must not become ordinary realism with a modest shawl added later. It must feel like the entire world has become real under restrained woven law: measured stripe-and-band order, practical body-cloth clarity, handloom calm, and everyday tribe-readable structure controlling every visible element.

Translate the full style into dimensional reality:

- shape must remain measured, repeatable, and ordinary-structured
- form must remain woven-order-governed rather than costume-realism-governed
- color must remain under practical readability law
- light must preserve stripe-band calm and structural clarity
- shadow must support woven order rather than create spectacle
- volume must behave like real body-borne everyday cloth and practical world form
- depth must be built through measured field order and stable space rather than generic scenic realism
- characters, animals, props, architecture, terrain, and all environmental structures must feel generated through ordinary-shawl law, not merely styled by it

Keep realism under branch control:

believable cloth weight, practical body use, quiet woven clarity, everyday public readability, and total handloom-world coherence.

Avoid:

ordinary realism with simple shawls, anonymous handmade-fabric realism, lifestyle-textile mood, generic striped worlds, false prestige drama, and prop-only ordinary cloth accents.

The final result must feel like the ordinary / unrestricted Naga shawl branch itself has become a believable living world.

Reusable Variable Template

Create [SUBJECT / SCENE] as a full 3D realistic dimensional world generated from the ordinary / unrestricted shawl grammar of Nagaland.

Style system that must remain unchanged:

- measured woven order
- practical body-cloth clarity
- restrained stripe-and-band law
- handloom calm
- non-prestige tribe-readable structure
- whole-frame ordinary-shawl coherence

Translate the scene like this:

- [MAIN SUBJECT] becomes a fully dimensional figure built from practical woven interval and everyday body-cloth order
- [SECONDARY SUBJECTS] obey the same restrained structure
- [ANIMALS / OBJECTS / PROPS] become believable forms governed by quiet repeated woven law
- [ARCHITECTURE / MOUNTAINS / TREES / GROUND / BACKGROUND] become real spatial forms organized by stable interval and practical handloom calm
- [LIGHT / SHADOW] become realistic but still woven-order-revealing

- [SPACE / DEPTH] become believable practical field-space rather than generic realism-space
- [MOVEMENT / PHYSICS] become real body-use continuity and everyday cloth interaction

Increase:

cloth realism, practical body presence, stable interval depth, world completion, calm woven coherence.

Do not lose:

restrained order, practical clarity, handloom calm, non-prestige structure, branch-born coherence.

Avoid:

normal realism with simple shawls, anonymous fabric worlds, quiet lifestyle-textile realism, and ordinary scenes with modest cloth accents.

The final result must feel like a real ordinary Naga shawl world.

Image-to-Image

Convert this source image into a full 3D realistic ordinary / unrestricted Naga shawl world.

Preserve the source image's subject count, readable action, and main relationships, but rebuild all visible forms through restrained woven body-cloth logic. Replace ordinary realism with measured stripe-and-band law, practical body use, everyday handloom order, and calm tribe-readable world behavior.

The transformed image must become:

- ordinary-structured rather than fabric-decorated
- practical rather than generic
- handloom-governed rather than realism-led
- real in volume but still controlled by everyday shawl law
- unified across figures, animals, props, architecture, terrain, and environment

Do not let only selected garments become branch-correct.

Do not let realism take over.

Do not leave the rest of the world generic.

The final result must feel like the ordinary / unrestricted Naga shawl world has become believable reality.
