

# Gabbas - Kashmir

## V1 — Authentic Style

### Universal Hard Prompt

Create an image in **pure authentic source-truth Gabbas / Kashmir**.

Treat the style as a **reconstructed blanket-rug system**, not as woven carpet, not as knotted-pile rug, not as printed furnishing textile, and not as luxury home décor.

Build the image through true Gabba grammar:  
old woollen blanket or thick reused textile base,  
joined and backed construction,  
soft layered mass,  
warm domestic floor-covering identity,  
appliqué or hooked chain-stitch surface enrichment,  
bright floral, geometric, medallion, border, and nature-derived field organization,  
and lived household usefulness.

The object must feel made from **transformed textile body**, not loom logic.  
Do not show woven grid.  
Do not show knotted pile.  
Do not show seamless luxury rug manufacture.  
Do not show printed pattern behavior.

The base must remain primary:  
thick,  
soft,  
warm,  
slightly weighty,  
textile-built,  
domestic,  
grounded,  
and visibly substantial.  
The decoration must feel attached to and supported by that real base.

Use the correct source ornament logic:  
appliqué-like added forms,  
hooked chain-stitch or embroidered enrichment,  
bright field order,  
floral and geometric motifs,  
central medallion or distributed field structure,  
decorative borders,

and Kashmiri domestic rug richness.  
But the ornament must not overpower the object body.

If figures, animals, objects, or environment appear, they must not remain generic realism with Gabba pasted afterward.

They must become **Gabba-born presences**:

soft-mass,  
textile-built,  
surface-organized,  
grounded,  
and subordinate to reconstructed rug logic.

If a room appears, it must support Gabba's warm domestic ground-use identity rather than turning into a premium interior.

Do not make:

generic colorful Kashmiri rug,  
premium furnishing object,  
woven carpet,  
pile carpet,  
Namda-like felt body,  
printed mat,  
embroidery-first textile panel,  
or showroom décor styling.

The final image must feel like authentic Gabba itself authored the whole frame.

## Reusable Variable Template

Create **[SUBJECT / OBJECT / SCENE / WORLD]** in **pure authentic source-truth Gabbas / Kashmir**.

Treat the style as a **reconstructed blanket-based domestic ground system** built from:

old woollen or thick textile body,  
joined and backed construction,  
soft layered warmth,  
appliqué or hooked chain-stitch surface enrichment,  
and bright floral / geometric / nature-based field order.

Core style system to preserve:

reconstructed blanket-body identity,  
joined textile mass,  
warm domestic floor-covering logic,  
bright field organization,  
surface work supported by real base,  
soft-edged but substantial contour behavior,  
and lived household use-object truth.

Translate the image like this:

**[MAIN IMAGE CORE]** becomes Gabba-authored through thick reconstructed textile mass and decorated field order.

**[SECONDARY ELEMENTS]** become supporting Gabba-built elements obeying the same soft layered rug grammar.

**[ENVIRONMENT / BACKGROUND / GROUND]** must also inherit Gabba's warm domestic textile logic instead of staying generic realism.

Keep:

layered thickness,  
textile-built body,  
joined construction memory,  
surface enrichment on real base,  
bright domestic order,  
and grounded use-object presence.

Avoid:

woven or knotted rug behavior,  
Namda-like felt logic,  
printed textile behavior,  
premium home styling,  
glossy furnishing mood,  
or generic realism with Kashmiri decoration added later.

The final image must feel like true Gabba itself generated the entire frame.

## Image-to-Image

Convert this source image into **pure authentic source-truth Gabbas / Kashmir**.

Preserve the source image's core subject identity, subject count, action relationship, and main composition purpose,  
but rebuild the whole image through true Gabba grammar.

Replace ordinary image logic with:

reconstructed blanket-body thickness,  
joined and backed textile mass,  
warm domestic rug presence,  
appliqué or hooked chain-stitch surface work,  
bright floral / geometric / medallion / border organization,  
and lived floor-covering usefulness.

Do not simply place Gabba motifs on a normal rug.

Do not keep generic realism underneath.

Do not make it woven, knotted, printed, or luxury-furnished.

Do not let embroidery become the only identity.

If the source contains figures or objects, rebuild them as **Gabba-born textile presences**.

If the source contains environment, rebuild it through the same warm layered ground-object logic.

Do not let the room or background become more realistic than the Gabba system.

The final result must feel like the source image has been fully re-authored by authentic Gabba logic.

## V2 — Artisan Translation

### Universal Hard Prompt

Create an image in **V2 = authentic handcrafted dimensional translation of Gabbas / Kashmir**.

Keep the same deep source grammar unchanged:

reconstructed blanket-body identity,  
joined and backed textile mass,  
warm domestic floor-covering logic,  
appliqué or hooked chain-stitch enrichment,  
bright floral / geometric / nature-based field order,  
and lived household ground presence.

Now translate that same grammar into believable handcrafted dimensional presence.

This is **not** generic 3D rug rendering.

This is **not** premium furnishing realism.

This is **not** polished décor styling.

This is **not** a weaker V3.

This is **not** woven or knotted carpet realism.

This is **not** Namda felt logic.

Dimensionality must come from Gabba itself:

through layered thickness,  
through joined construction,  
through soft stacked textile mass,  
through backing and surface relation,  
through appliqué and chain-stitch sitting on a real base,  
through grounded warmth,  
and through domestic use-object weight.

Allow:

clearer edge thickness,  
stronger layered textile-body presence,

better relation between surface work and base structure,  
stronger softness plus weight,  
clearer ground contact,  
more believable handcrafted material presence,  
and more readable objecthood.

But keep the dimensionality **Gabba-specific**.

Do not make it plush like luxury carpet.

Do not make it sleek like upholstery.

Do not make it too seamless.

Do not let the decoration become stronger than the reconstructed body.

If figures, objects, or environment appear, they must already become style-born:

textile-bodied,

soft-mass,

joined-structure-aware,

surface-organized,

and governed by Gabba's grounded domestic logic.

Do not keep realistic figures or interiors and simply decorate them.

The whole image must feel like authentic Gabba has entered handcrafted dimensional presence,

not like a generic 3D image has been themed afterward.

## Reusable Variable Template

Create **[SUBJECT / OBJECT / SCENE / WORLD]** in **V2 = authentic handcrafted dimensional translation of Gabbas / Kashmir**.

Preserve the unchanged deep source core:

reconstructed blanket-body identity,

joined and backed textile mass,

warm domestic rug logic,

appliqué or hooked chain-stitch enrichment,

bright field order,

and grounded use-object presence.

Translate the image like this:

**[MAIN IMAGE CORE]** becomes a dimensionally readable Gabba-built presence with clearer layered thickness and handcrafted textile body.

**[SECONDARY ELEMENTS]** become supporting Gabba-born forms obeying the same soft stacked rug grammar.

**[ENVIRONMENT / BACKGROUND / GROUND]** gains Gabba-authored structure instead of generic realism.

Increase:

layer thickness,  
edge-read,  
soft weight,  
surface tactility,  
base-to-decoration relation,  
ground contact,  
and handcrafted material presence.

Do not lose:

reconstructed body truth,  
joined construction memory,  
domestic warmth,  
bright field order,  
and decoration remaining secondary to the base.

Avoid:

generic artisan rug realism,  
luxury furnishing style,  
Namda felt behavior,  
woven or knotted carpet logic,  
showroom polish,  
or realistic subjects with surface ornament added later.

The final image must feel like authentic Gabba translated into handcrafted dimensional presence.

## Image-to-Image

Convert this source image into **V2 authentic handcrafted dimensional Gabbas / Kashmir**.

Preserve the source image's main identity, action, and readable structure,  
but rebuild the whole image through Gabba's reconstructed textile grammar translated into dimensional presence.

Replace ordinary image logic with:

layered blanket-body thickness,  
joined and backed textile construction,  
soft stacked textile mass,  
appliqué or hooked chain-stitch enrichment,  
bright domestic field organization,  
and grounded warm use-object presence.

Allow:

more visible thickness,  
stronger base-body presence,

clearer relation between surface work and structure,  
more believable textile weight,  
better edge and floor contact,  
and stronger handcrafted objecthood.

Do not:

turn it into premium décor realism,  
make it woven or knotted,  
make it Namda-like,  
make it too seamless,  
make it luxury-soft,  
or keep the figures and environment realistic while only the rug changes.

Rebuild all visible elements so they feel born from Gabba's own layered textile intelligence.  
The final result must feel like the source image has entered a handcrafted dimensional Gabba world.

## V3 — 3D / Realistic / Cinematic Translation

### Universal Hard Prompt

Create an image in **V3 = fully resolved believable dimensional world of Gabbas / Kashmir**.

This must become a fully embodied complete world,  
but it must still be ruled by the same Gabba grammar:  
reconstructed blanket-body identity,  
joined and backed textile mass,  
warm domestic floor-covering truth,  
appliqué or hooked chain-stitch enrichment,  
bright field organization,  
and lived household groundedness.

This is **not** a décor remix.

This is **not** a premium interior makeover.

This is **not** a furnishing advertisement.

This is **not** realism with Gabba decoration added later.

This is the same authentic Gabba system translated into its most complete believable form.

Increase:

full material clarity,  
stronger layered textile-body realism,  
stronger thickness and edge presence,  
stronger base-to-surface relation,  
stronger ground contact,

stronger object weight,  
stronger whole-frame readability,  
stronger spatial completion,  
and stronger lived domestic-world coherence.

But do not introduce a second visual language.  
Do not let furnishing glamour overpower Gabba.  
Do not let décor mood replace reconstructed textile truth.  
Do not let the decoration overpower the body.  
Do not let the room become more important than the Gabba-authored world.

V3 realism must come from Gabba itself:  
through layered blanket-mass,  
through joined construction,  
through backing and attached surface work,  
through soft but weighty textile presence,  
through warm domestic use-object logic,  
and through complete material embodiment.

If figures, objects, or environment appear, they must remain **Gabba-born**:  
textile-bodied,  
soft-mass,  
joined-structure-aware,  
grounded,  
and governed by reconstructed domestic rug logic rather than generic realism.  
The full frame must belong to one Gabba-authored world.

The final result must feel like Gabba itself has become a fully resolved believable reality,  
not like reality has been coated with Gabba decoration.

## Reusable Variable Template

Create **[SUBJECT / OBJECT / SCENE / WORLD]** in **V3 = fully resolved believable dimensional world of Gabbas / Kashmir**.

Keep the same unchanged source core:  
reconstructed blanket-body identity,  
joined and backed textile mass,  
warm domestic floor-covering logic,  
appliqué or hooked chain-stitch enrichment,  
bright floral / geometric / nature-based field order,  
and grounded household use-object truth.

Translate the image like this:

**[MAIN IMAGE CORE]** becomes a fully embodied Gabba-authored presence with believable

layered textile reality.

**[SECONDARY ELEMENTS]** become equally style-born, obeying the same joined soft rug grammar.

**[ENVIRONMENT / BACKGROUND / GROUND / SPACE]** becomes a complete believable world still governed by Gabba logic, not generic furnishing realism.

Increase:

material-body clarity,  
edge and thickness realism,  
surface-to-base relation,  
object weight,  
ground contact,  
field coherence,  
environmental completion,  
and whole-frame control.

Do not lose:

reconstructed blanket truth,  
joined construction memory,  
domestic warmth,  
bright field order,  
and the rule that decoration remains supported by the base.

Avoid:

premium décor mood,  
luxury furnishing styling,  
woven or knotted rug behavior,  
Namda-like felt logic,  
showroom product logic,  
generic realistic interior with one Kashmiri rug inserted,  
or any second visual language stronger than the Gabba system.

The final image must feel like the same Gabba grammar fully embodied into believable reality.

## Image-to-Image

Convert this source image into **V3 fully resolved believable Gabbas / Kashmir**.

Preserve the source image's main purpose, subject count, action logic, and readable composition,  
but rebuild every visible element through authentic Gabba grammar fully embodied.

Replace ordinary realism with:

reconstructed blanket-body mass,  
joined and backed textile structure,  
soft layered weight,

appliqué or hooked chain-stitch enrichment,  
bright domestic field organization,  
and warm grounded use-object presence.

Expand the image into:

fully believable textile-body presence,  
clear thickness and edge reality,  
strong ground contact,  
full object weight,  
clear relation between decoration and base,  
complete environmental coherence,  
strong spatial separation,  
and strong whole-frame unity.

Do not merely decorate the surface.

Do not make a décor product image.

Do not make it woven, knotted, Namda-like, plush, or luxury-furnished.

Do not keep generic realistic people, objects, or room styling.

Do not let realism replace Gabba logic.

Do not let V3 become a more glamorous cousin of V1.

Rebuild the whole image so it feels like authentic Gabba itself has become a complete believable lived textile-world.
