

# Rajasthani Miniature - Rajasthan

## V1 — Authentic Style

### Universal Hard Prompt

Attachments needed: none.

Create an image in pure authentic source-truth Rajasthani Miniature from Rajasthan.

Treat this as a Rajput court-painting umbrella family, not as generic Indian miniature, not as Phad, not as Nathdwara Pichhwai, not as Mughal realism, and not as folk painting.

Build the image from the true family-level grammar of Rajasthani Miniature:

folio-based picture-space,  
Rajput court-painting logic,  
bold designed color,  
conventionalized human figure construction,  
ornamental landscape treatment,  
poetic-devotional-courtly subject framing,  
refined painted-surface control,  
clear contour discipline,  
miniature-world coherence across the whole frame.

The image must feel like it genuinely belongs inside the original Rajasthani miniature tradition at umbrella-family level.

Keep the whole frame inside one miniature-world visual language.

The figures themselves must be source-born:

stylized faces,  
stylized bodies,  
courtly posture,  
emotionally coded gesture,  
composed figure grouping,  
miniature-born silhouette logic.

Environment and setting must also be source-born:

palaces, terraces, gardens, hills, clouds, pavilions, textiles, trees, animals, and architectural forms must all behave like parts of a designed Rajput miniature picture-space, not like naturalistic realism.

Use bold, structured, non-generic color.

Use ornamental landscape logic.

Use courtly or poetic compositional intelligence.

Preserve folio-scale picture thinking, not mural spread, not backdrop-space, not cinematic scene-space.

Do not add:

generic realism,

generic royal costume illustration,

Mughal naturalism without Rajput stylization,

Phad-like distributed narrative field,

Pichhwai-like temple backdrop hierarchy,

generic “miniature look” without Rajasthani family logic,

or decorative Indian art surface styling over generic forms.

The final image must feel like a true Rajasthani court miniature world from Rajasthan at source-truth level, not a modern image wearing miniature decoration.

## **Reusable Variable Template**

Attachments needed: none.

Create [SUBJECT / SCENE / IMAGE FIELD] using the authentic source-truth grammar of Rajasthani Miniature from Rajasthan.

Core style system to preserve:

Rajput court-painting identity,

folio-based picture-space,

bold designed color,

conventionalized figure logic,

ornamental landscape treatment,

poetic-devotional-courtly subject framing,

refined contour-led painted organization,

whole-frame miniature-world consistency.

Translate the image like this:

[MAIN FIGURE / MAIN GROUP] becomes a stylized Rajput miniature presence with courtly or poetic figure logic.

[SECONDARY FIGURES / ANIMALS / OBJECTS] become supporting miniature presences obeying the same family grammar.

[ENVIRONMENT / ARCHITECTURE / LANDSCAPE / BACKGROUND] becomes a miniature-authored pictorial world with ornamental setting treatment rather than neutral realism.

Keep:

stylized faces,

stylized bodies,

courtly posture,

designed color fields,  
ornamental landscape logic,  
folio picture-space,  
poetic-devotional-courtly image intelligence.

Avoid:

generic miniature styling,  
Mughal realism drift,  
folk painting flattening,  
Phad scroll logic,  
Pichhwai backdrop logic,  
royal costume realism,  
or cinematic environment-building.

The final image must feel like the Rajasthani miniature family itself authored the full picture-space.

## **Image-to-Image**

Attachments needed: none.

Convert this source image into an authentic source-truth Rajasthani Miniature painting from Rajasthan.

Preserve the source image's core subject count, main action or pose relation, and overall readability, but rebuild the entire image through true Rajasthani miniature grammar.

Replace ordinary image logic with:

Rajput court folio picture-space,  
bold designed color,  
conventionalized figure construction,  
ornamental setting treatment,  
refined contour order,  
poetic-devotional-courtly subject intelligence,  
and a fully unified miniature-world structure.

Do not simply flatten the image.

Do not merely add royal costumes or palace elements.

Do not turn it into generic "Indian miniature" styling.

If the source contains figures, rebuild them as Rajasthani miniature-born presences:

stylized faces,  
stylized bodies,  
composed posture,  
coded gesture,  
courtly or poetic role identity,

clear miniature-world placement.

If the source contains animals, architecture, landscape, objects, or background, translate them into the same Rajput miniature pictorial system.

Do not leave the environment as neutral realism.

Do not let it become Mughal-style realism.

The final image must feel like a genuine Rajasthani miniature folio world from Rajasthan, not a modern image decorated in miniature style.

## **V2 — Artisan Translation**

### **Universal Hard Prompt**

Attachments needed: none.

Create an image in V2 = authentic handcrafted dimensional translation of Rajasthani Miniature from Rajasthan.

Keep the same deep style-core unchanged:

Rajput court-painting identity,

folio-based picture-space,

bold designed color,

conventionalized human figure grammar,

ornamental landscape treatment,

poetic-devotional-courtly subject framing,

refined contour structure,

whole-frame miniature-world coherence.

Now translate that same source grammar into believable handcrafted dimensional form.

This is not generic 3D.

This is not realistic court scene painting.

This is not Mughal realism.

This is not a decorative diorama.

This is not luxury concept art.

The image must still feel authored by Rajasthani miniature logic first.

Allow:

moderate figure and object thickness,

painted surfaces wrapping over form,

handcrafted material tactility,

shallow but clear spatial layering,

clearer separation between figures and setting,  
more deployable dimensional readability,  
stronger miniature-world object presence,  
but only through the same Rajput miniature grammar.

Keep unchanged:  
stylized figure logic,  
bold designed color,  
ornamental setting treatment,  
folio-authored picture-space,  
poetic-devotional-courtly image structure,  
miniature-born contour intelligence.

Important version rule:  
V2 for Rajasthani Miniature must feel like a Rajput court miniature world entering  
handcrafted dimensional picture-space,  
not like a realistic court scene gaining miniature decoration.

If figures appear, they must remain miniature-born:  
stylized faces,  
stylized bodies,  
courtly posture,  
coded gesture,  
designed silhouette,  
composed placement.

If palaces, terraces, hills, trees, textiles, animals, gardens, clouds, or architecture appear,  
they must also remain style-born:  
they must belong to one dimensional miniature-world, not a realistic environment.

Do not allow:  
generic artisan 3D,  
Mughal realism drift,  
royal costume realism,  
folk flattening,  
cinematic scene-space,  
decorative palace set design,  
normal humans with miniature styling,  
or ornamental landscape becoming naturalistic.

The final image must feel like the same Rajasthani miniature grammar has entered  
handcrafted dimensional image-space without losing its folio-world identity.

## **Reusable Variable Template**

Attachments needed: none.

Create [SUBJECT / SCENE / IMAGE FIELD] in V2 = authentic handcrafted dimensional translation of Rajasthani Miniature from Rajasthan.

Preserve these unchanged style-core rules:

Rajput court-painting identity,  
folio-based picture-space,  
bold designed color,  
conventionalized figure logic,  
ornamental setting treatment,  
poetic-devotional-courtly image framing,  
refined contour structure,  
whole-frame miniature-world consistency.

Translate the image like this:

[MAIN FIGURE / MAIN GROUP] becomes a dimensionally readable miniature presence with moderate thickness and strong courtly or poetic authority.

[SECONDARY FIGURES / ANIMALS / OBJECTS] become supporting dimensional miniature presences still arranged by Rajasthani family logic.

[ENVIRONMENT / ARCHITECTURE / LANDSCAPE / BACKGROUND] becomes a handcrafted pictorial world with shallow layering and ornamental setting treatment, not neutral realism.

Increase:

moderate thickness,  
painted-surface tactility,  
miniature-world object presence,  
controlled spatial layering,  
figure-setting separation,  
handcrafted dimensional readability.

Do not lose:

folio picture-space,  
stylized figure construction,  
bold designed color,  
ornamental landscape logic,  
courtly-poetic image intelligence,  
miniature-world coherence.

Avoid:

generic 3D,  
Mughal naturalism,  
royal-scene realism,  
folk painting flattening,  
cinematic depth logic,  
decorative palace imagery without miniature grammar,  
or realism stronger than Rajasthani miniature logic.

The final image must feel like the same Rajasthani miniature source grammar has become a handcrafted dimensional pictorial world.

## **Image-to-Image**

Attachments needed: none.

Convert this source image into a V2 authentic handcrafted dimensional Rajasthani Miniature world from Rajasthan.

Preserve the source image's main action, subject count, and readable arrangement, but rebuild the entire image through Rajasthani miniature grammar translated into handcrafted dimensional form.

Replace ordinary image logic with:  
Rajput court folio picture-space,  
bold designed color,  
conventionalized figure construction,  
ornamental setting treatment,  
refined contour-led organization,  
poetic-devotional-courtly miniature intelligence,  
and a dimensional but still style-born pictorial world.

Allow moderate thickness, shallow layering, and handcrafted spatial separation, but do not let the image become realistic court art, Mughal-style realism, or generic 3D period imagery.

If the source contains figures, rebuild them as Rajasthani miniature-born presences rather than realistic bodies.

If the source contains landscape, architecture, animals, objects, or background, rebuild them inside the same miniature-world logic.

Do not leave the environment as scenic realism.

Do not make the result a decorative palace diorama.

The final image must feel like a handcrafted dimensional translation of the same Rajasthani miniature family grammar.

## **V3 — 3D / Realistic / Cinematic Translation**

### **Universal Hard Prompt**

Attachments needed: none.

Create an image in V3 = fully resolved believable real-world 3D translation of Rajasthani Miniature from Rajasthan while keeping the same source grammar unchanged.

This must become a fully embodied dimensional world, but it must still be ruled by Rajasthani miniature logic, not by generic realism, not by Mughal naturalism, and not by cinematic royal spectacle.

Preserve the same unchanged deep style-core:

Rajput court-painting identity,  
folio-origin picture intelligence,  
bold designed color,  
conventionalized figure construction,  
ornamental landscape treatment,  
poetic-devotional-courtly subject framing,  
refined contour structure,  
whole-frame miniature-world coherence.

Now push that same grammar into its most complete dimensional embodiment.

Increase:

full volumetric presence,  
material clarity,  
figure-ground separation,  
stronger spatial staging,  
environmental completion,  
full miniature-world coherence,  
clearer courtly or poetic hierarchy,  
stronger full-frame orchestration,  
but without replacing Rajasthani miniature with realism logic.

Critical rule:

V3 must still feel like the same Rajasthani miniature DNA fully embodied.  
It must not become a realistic royal court painting.  
It must not become Mughal realism.  
It must not become cinematic Rajasthan spectacle.  
It must not become generic historical concept art.

If figures appear, they must still remain miniature-born:

stylized faces,  
stylized bodies,  
courtly posture,  
coded gesture,  
designed silhouettes,  
miniature-world placement.

If palaces, terraces, pavilions, gardens, hills, trees, textiles, animals, skies, and architecture appear, they must also remain miniature-born:  
they must still belong to a fully unified Rajput miniature world rather than a neutral realistic environment.

Folio picture intelligence must remain stronger than scenic realism.  
Ornamental landscape treatment must remain stronger than naturalistic environment rendering.  
The image must not collapse into one realistic moment.  
Supporting elements must still reinforce miniature-world order across the whole frame.

Do not allow:  
generic cinematic Rajasthan realism,  
Mughal drift,  
realistic court interior or palace realism,  
historical fantasy art,  
normal human anatomy under stylized surface,  
poster-like royal centralization,  
or any second visual language overpowering Rajasthani miniature grammar.

The final result must feel like the same Rajasthani miniature family grammar has become a fully inhabitable real-world pictorial reality.

## **Reusable Variable Template**

Attachments needed: none.

Create [SUBJECT / SCENE / IMAGE FIELD] in V3 = fully resolved believable real-world 3D translation of Rajasthani Miniature from Rajasthan.

Keep these unchanged style-core rules:  
Rajput court-painting identity,  
folio-origin picture intelligence,  
bold designed color,  
conventionalized figure grammar,  
ornamental setting treatment,  
poetic-devotional-courtly subject framing,  
refined contour structure,  
whole-frame miniature-world coherence.

Translate the image like this:  
[MAIN FIGURE / MAIN GROUP] becomes a fully embodied dimensional miniature presence with strong courtly, devotional, or poetic authority.  
[SECONDARY FIGURES / ANIMALS / OBJECTS] become equally style-born dimensional miniature presences.  
[ENVIRONMENT / ARCHITECTURE / LANDSCAPE / BACKGROUND] becomes a complete inhabitable Rajasthani miniature world, not neutral realism.

Increase:  
full dimensional embodiment,  
material clarity,

figure-ground separation,  
spatial staging,  
environmental completion,  
courtly or poetic hierarchy clarity,  
full-frame coherence,  
miniature-world completion.

Do not lose:  
folio picture intelligence,  
stylized figure logic,  
bold designed color,  
ornamental landscape treatment,  
miniature-born setting order,  
poetic-devotional-courtly image structure.

Avoid:  
generic realism,  
Mughal naturalism,  
cinematic period spectacle,  
royal costume realism,  
palace realism,  
folk flattening,  
or any realism stronger than Rajasthani miniature grammar.

The final image must feel like the same Rajasthani miniature source system has become fully embodied real-world miniature reality.

## **Image-to-Image**

Attachments needed: none.

Convert this source image into a V3 fully resolved believable real-world Rajasthani Miniature world from Rajasthan.

Preserve the source image's main action, subject count, core pose logic, and readable arrangement, but rebuild all visible forms through fully embodied Rajasthani miniature grammar.

Replace ordinary realism with:  
Rajput court folio picture intelligence,  
bold designed color,  
conventionalized stylized figure logic,  
ornamental landscape treatment,  
refined contour-led organization,  
and full-world miniature coherence.

Expand the image into a complete dimensional miniature-world:  
full volumetric presence,  
clear figure-ground separation,  
material clarity,  
environmental completion,  
courtly-poetic hierarchy,  
and full-frame readability.

Do not turn the image into realistic royal painting.  
Do not let it become Mughal realism.  
Do not let the background become realistic palace, garden, court interior, or landscape space.  
Do not let only costume, jewelry, or architecture carry the style.

The final image must feel like Rajasthani Miniature itself has become fully embodied real-world pictorial reality.
