

Sanganer - Rajasthan

V1 — Authentic Style

Universal Hard Prompt

Attachments needed: none.

Create an image in pure authentic source-truth Sanganer from Rajasthan.

Treat this as a true fine hand block textile-printing system, not as floral painting, not as wallpaper, not as generic ethnic fabric, not as Bagru, not as Ajrakh, and not as boutique fashion print.

Build the image from the true grammar of Sanganer:

light prepared cloth identity,
white or off-white ground logic,
fine hand block repeat construction,
delicate floral and nature-derived motif behavior,
clean print precision,
bright-ground contrast,
elegant repeat rhythm,
and whole-field textile coherence.

The image must feel like it genuinely belongs inside the original Sanganer textile tradition.

Keep the whole frame inside one cloth-authored visual language.

The surface itself must be source-born:

fine printed cloth, not painted cloth,
block-built motif edges, not freehand botanical drawing,
bright ground actively shaping the field,
repeat architecture, not picture composition,
wearable and spreadable textile logic, not framed image logic.

Motif logic must remain source-faithful:

small to medium butis,
butas,
jaals,
bels,
fine floral sprays,
leaves,
vines,
paisleys,

birds where relevant,
all handled as repeat-ready block motifs rather than naturalistic illustration.

Material memory must remain visible:

light fabric behavior,
bleached/prepared cloth clarity,
fine hand block precision,
sun-dried and finished textile feel,
clean but handmade registration,
and refined printed-surface elegance.

Use Sanganer color logic:

bright white or off-white ground,
clear refined color contrast,
delicate floral visibility,
light and elegant print behavior,
never muddy,
never overly earthy,
never synthetic-neon,
never luxury-fashion exaggerated.

Do not add:

generic floral fabric,
hand-painted botanical cloth,
Bagru-like earthy heaviness,
Ajrakh-like geometric dominance,
wallpaper panel logic,
digital repeat perfection,
synthetic fashion-print sharpness,
or any second textile language stronger than Sanganer.

The final result must feel like true Sanganer printed cloth from Rajasthan at source-truth level, not a modern textile decorated in delicate floral motifs.

Reusable Variable Template

Attachments needed: none.

Create [SUBJECT / OBJECT / TEXTILE FIELD / WORLD] using the authentic source-truth grammar of Sanganer from Rajasthan.

Core style system to preserve:

light prepared cloth identity,
white/off-white ground logic,
fine hand block repeat construction,
delicate floral and nature-derived motif system,

clean print precision,
bright-ground contrast,
refined textile-field rhythm,
whole-field Sanganer coherence.

Translate the image like this:

[MAIN SURFACE / MAIN FIELD / MAIN SUBJECT] becomes a Sanganer-born printed-cloth presence built through fine repeat, bright-ground clarity, and delicate block precision.

[SECONDARY SURFACES / OBJECTS / SUPPORTING ELEMENTS] become supporting Sanganer textile presences obeying the same light cloth logic.

[BACKGROUND / WORLD / ENVIRONMENT / SURROUNDING AREAS] becomes a Sanganer-authored textile field rather than neutral realism or wallpaper logic.

Keep:

light cloth identity,
white/off-white ground authority,
fine block-built motifs,
delicate floral rhythm,
clean print precision,
repeat-spacing elegance,
Sanganer field order.

Avoid:

generic floral textile,
hand-painted cloth,
wallpaper logic,
fashion-print realism,
Bagru drift,
Ajrakh drift,
digital sharpness,
or a realistic world with Sanganer motifs pasted on top.

The final image must feel like the Sanganer tradition itself authored the full textile field.

Image-to-Image

Attachments needed: none.

Convert this source image into an authentic source-truth Sanganer world from Rajasthan.

Preserve the source image's core subject count, structural readability, and main visual organization, but rebuild the entire image through true Sanganer grammar.

Replace ordinary image logic with:

light cloth identity,
white/off-white ground clarity,

fine hand block repeat construction,
delicate floral motif behavior,
clean print precision,
bright-ground contrast,
and full printed-textile coherence.

Do not simply add floral motifs.
Do not merely make the background white.
Do not turn the source into generic fine floral fabric.

If the source contains figures, objects, architecture, landscape, or background, rebuild them through Sanganer textile logic:
fine block-simplified forms,
repeat-structured behavior,
bright-ground cloth continuity,
clean printed-surface elegance,
and field-based organization.

Do not leave the environment as scenic realism.
Do not make it behave like wallpaper.
Do not make it digitally perfect.

The final image must feel like a genuine Sanganer printed-cloth world from Rajasthan, not a modern image decorated in delicate floral print style.

V2 — Artisan Translation

Universal Hard Prompt

Attachments needed: none.

Create an image in V2 = authentic handcrafted dimensional translation of Sanganer from Rajasthan.

Keep the same deep style-core unchanged:
light prepared cloth identity,
white/off-white ground logic,
fine hand block repeat construction,
delicate floral and nature-derived motif behavior,
clean print precision,
bright-ground contrast,
refined textile rhythm,
and whole-field Sanganer coherence.

Now translate that same source grammar into believable handcrafted dimensional form.

This is not generic 3D.

This is not boutique artisan fabric decor.

This is not embossed wallpaper.

This is not luxury home-textile styling.

This is not realistic fabric photography with Sanganer motifs mapped onto it.

The image must still feel authored by Sanganer cloth logic first.

Allow:

stronger cloth tactility,
moderate surface depth,
clearer relation between print layer and cloth body,
shallow but believable textile layering,
stronger field separation,
more deployable dimensional readability,
more legible motif layering without losing delicacy,
but only within Sanganer print logic.

Keep unchanged:

light cloth identity,
white/off-white ground authority,
fine block-built motif behavior,
bright-ground contrast,
clean print precision,
delicate repeat architecture,
Sanganer elegance.

Important version rule:

V2 for Sanganer must feel like true Sanganer printed cloth entering handcrafted dimensional textile space,
not like fashion fabric becoming more realistic.

If figures, objects, or environments appear, they must remain Sanganer-born:

light cloth-authored surfaces,
fine repeat-based organization,
bright-ground logic,
delicate print precision,
and textile intelligence stronger than realism.

Do not allow:

generic artisan textile 3D,
synthetic print sharpness,
luxury décor bias,
wallpaper embossing,
fashion-product realism,
hand-painted cloth look,

Bagru-like heaviness,
or any realism stronger than Sanganer cloth and print finesse.

The final result must feel like the same Sanganer grammar has entered handcrafted dimensional textile-world space without losing its fine printed-cloth identity.

Reusable Variable Template

Attachments needed: none.

Create [SUBJECT / OBJECT / TEXTILE FIELD / WORLD] in V2 = authentic handcrafted dimensional translation of Sanganer from Rajasthan.

Preserve these unchanged style-core rules:
light prepared cloth identity,
white/off-white ground logic,
fine hand block repeat construction,
delicate floral and nature-derived motif system,
clean print precision,
bright-ground contrast,
refined textile rhythm,
whole-field Sanganer coherence.

Translate the image like this:
[MAIN SURFACE / MAIN FIELD / MAIN SUBJECT] becomes a dimensionally readable Sanganer textile presence with stronger cloth tactility and clear fine print-layer structure.
[SECONDARY SURFACES / OBJECTS / SUPPORTING ELEMENTS] become supporting dimensional textile presences still arranged by Sanganer logic.
[BACKGROUND / WORLD / ENVIRONMENT] becomes a handcrafted Sanganer textile field with shallow layering and field separation, not neutral realism.

Increase:
moderate surface depth,
cloth tactility,
print-layer clarity,
field separation,
textile-body relation,
handcrafted dimensional readability.

Do not lose:
white/off-white ground authority,
fine block-built motifs,
bright-ground contrast,
clean print precision,
delicate repeat architecture,
Sanganer field elegance.

Avoid:

generic 3D textile art,
wallpaper embossing,
fashion-product realism,
luxury décor fabric,
synthetic print precision,
Bagru drift,
Ajrakh drift,
or any realism stronger than Sanganer grammar.

The final image must feel like the same Sanganer source grammar has become a handcrafted dimensional textile-world.

Image-to-Image

Attachments needed: none.

Convert this source image into a V2 authentic handcrafted dimensional Sanganer world from Rajasthan.

Preserve the source image's main visual arrangement and readable structure, but rebuild the entire image through Sanganer grammar translated into handcrafted dimensional form.

Replace ordinary image logic with:

light cloth identity,
white/off-white ground clarity,
fine hand block repeat construction,
delicate floral motif behavior,
clean print precision,
bright-ground contrast,
and a dimensional but still style-born printed-textile world.

Allow moderate surface depth, cloth tactility, print-layer separation, and handcrafted textile dimensionality, but do not let the image become realistic fashion fabric, wallpaper, or luxury textile décor.

If the source contains figures, objects, architecture, or background, rebuild them through Sanganer textile logic rather than neutral realism.

Do not leave the environment as scenic realism.

Do not make the result look like generic artisan fine floral fabric.

The final image must feel like a handcrafted dimensional translation of the same Sanganer grammar.

V3 — 3D / Realistic / Cinematic Translation

Universal Hard Prompt

Attachments needed: none.

Create an image in V3 = fully resolved believable real-world 3D translation of Sanganer from Rajasthan while keeping the same source grammar unchanged.

This must become a fully embodied dimensional world, but it must still be ruled by Sanganer logic, not by generic textile realism, not by luxury floral décor, and not by boutique fashion styling.

Preserve the same unchanged deep style-core:

light prepared cloth identity,
white/off-white ground logic,
fine hand block repeat construction,
delicate floral and nature-derived motif system,
clean print precision,
bright-ground contrast,
refined textile rhythm,
and full Sanganer coherence.

Now push that same grammar into its most complete dimensional embodiment.

Increase:

full cloth-material presence,
stronger relation between print and textile body,
stronger material clarity,
stronger field separation,
full textile-world completion,
clearer surface-to-space organization,
stronger full-frame coherence,
but without replacing Sanganer with realism logic.

Critical rule:

V3 must still feel like the same Sanganer DNA fully embodied.

It must not become realistic fashion cloth.

It must not become luxury home-textile styling.

It must not become wallpaper realism.

It must not become hyper-real premium floral fabric.

It must not become a realistic world with Sanganer pattern applied afterward.

If figures, objects, or environments appear, they must still remain Sanganer-born:

light cloth logic,
fine block-built motif behavior,
bright-ground authority,

delicate repeat architecture,
and textile-authored organization must remain stronger than realism.

White/off-white ground logic must remain stronger than scenic realism.
Print finesse must remain stronger than decorative luxury polish.
Sanganer delicacy must remain stronger than premium beautification.
The image must not collapse into product photography or décor display.

Do not allow:
generic textile realism,
luxury décor bias,
fashion editorial styling,
synthetic surface perfection,
wallpaper logic,
digital repeat sharpness,
Bagru heaviness,
or any second textile language overpowering Sanganer grammar.

The final result must feel like the same Sanganer grammar has become a fully inhabitable real-world textile-print reality.

Reusable Variable Template

Attachments needed: none.

Create [SUBJECT / OBJECT / TEXTILE FIELD / WORLD] in V3 = fully resolved believable real-world 3D translation of Sanganer from Rajasthan.

Keep these unchanged style-core rules:
light prepared cloth identity,
white/off-white ground logic,
fine hand block repeat construction,
delicate floral and nature-derived motif system,
clean print precision,
bright-ground contrast,
refined textile rhythm,
whole-field Sanganer coherence.

Translate the image like this:
[MAIN SURFACE / MAIN FIELD / MAIN SUBJECT] becomes a fully embodied Sanganer textile presence with strong cloth-material authority and visible fine print-process intelligence.
[SECONDARY SURFACES / OBJECTS / SUPPORTING ELEMENTS] become equally style-born dimensional textile presences.
[BACKGROUND / WORLD / ENVIRONMENT] becomes a complete Sanganer textile-world, not neutral realism.

Increase:
full cloth embodiment,
material clarity,
print-layer presence,
field separation,
textile-world completion,
surface-to-space coherence,
full-frame readability,
stronger Sanganer-world orchestration.

Do not lose:
light cloth identity,
white/off-white ground authority,
fine block-built motifs,
clean print precision,
bright-ground contrast,
delicate repeat architecture,
Sanganer elegance.

Avoid:
generic textile realism,
fashion cloth styling,
luxury décor finish,
wallpaper realism,
synthetic precision,
Bagru drift,
Ajrakh drift,
or any realism stronger than Sanganer grammar.

The final image must feel like the same Sanganer source system has become fully embodied real-world textile-print reality.

Image-to-Image

Attachments needed: none.

Convert this source image into a V3 fully resolved believable real-world Sanganer world from Rajasthan.

Preserve the source image's main visual arrangement and readable structure, but rebuild all visible forms through fully embodied Sanganer grammar.

Replace ordinary realism with:
light cloth identity,
white/off-white ground clarity,
fine hand block repeat construction,

delicate floral motif behavior,
clean print precision,
bright-ground contrast,
and full-world Sanganer textile coherence.

Expand the image into a complete dimensional Sanganer textile-world:
full cloth-material presence,
clear relation between print and surface,
material clarity,
field separation,
textile-world completion,
and full-frame readability.

Do not turn the image into realistic fashion fabric.
Do not let it become luxury floral décor.
Do not let the background become neutral realism.
Do not let only the motifs carry the style.

The final image must feel like Sanganer itself has become fully embodied real-world
textile-print reality.
