

Papier-mâché - Kashmir

V1 — Authentic Style

Universal Hard Prompt

Create an image in pure authentic source-truth Kashmir papier-mâché.

Treat this as a true Kashmiri GI paper-craft tradition, not as flat painted paper art, not as rough hobby papier-mâché, not as generic recycled-paper craft, not as lacquerware, not as painted wood, and not as decorative souvenir styling.

Build the image from the true grammar of Kashmir papier-mâché:

molded paper-pulp object body,
contained object volume,
muslin and gutchi reinforced shell,
chalk-glue smoothed surface,
polished refined finish,
gold and silver enrichment where relevant,
fine floral and Mughal-derived painted ornament,
rich high-contrast decorative color,
and whole-object Kashmiri paper-craft coherence.

The image must feel like it genuinely belongs inside the original Kashmir papier-mâché tradition.

Keep the whole frame inside one object-surface-authored visual language.

The object itself must be source-born:

paper body first,
reinforced shell first,
smoothed and polished skin first,
ornament after structural preparation,
not flat painting first,
not raw pulp texture first,
not another material disguised as papier-mâché.

Body logic must remain source-faithful:

molded contained paper form,
balanced object silhouette,
clear shell structure,
light but resolved body,
not flimsy,
not flat,
not sculpturally rough,
not ceramic-heavy,

not wooden.

Surface-preparation logic must remain source-faithful:

sealed and smoothed skin,
refined polished readiness for ornament,
even decorative surface,
not fibrous,
not visibly raw pulp,
not coarse recycled-paper texture,
not unfinished craft roughness.

Ornament logic must remain source-faithful:

fine Kashmiri floral systems such as Hazara and Gul Vilayat where relevant,
Mughal-derived ornamental painting,
animals or mythology or battle-scene imagery where relevant,
all integrated into the prepared object surface,
not graphic print,
not wallpaper pattern,
not random decorative doodling.

Color logic must remain source-faithful:

rich red and blue and white and black with yellow and gold and silver where relevant,
high-contrast decorative richness,
not muted boutique minimalism,
not earthy eco-craft neutrals,
not washed-out pastel object styling.

Material-attitude logic must remain source-faithful:

refined,
elegant,
ornamental,
prestige-craft finished,
not playful hobby craft,
not rough handmade-paper aesthetic,
not cheap souvenir finish.

Do not add:

generic decorative box styling,
luxury product-photography logic,
ceramic or lacquer drift,
flat miniature-painting behavior,
or any second object language stronger than Kashmir papier-mâché.

The final result must feel like true Kashmir papier-mâché at source-truth level, not a modern decorative object merely painted with floral motifs.

Reusable Variable Template

Create [SUBJECT / DECORATIVE OBJECT / ORNAMENTAL SURFACE WORLD / MOLDED PAPER-CRAFT SCENE] using the authentic source-truth grammar of Kashmir papier-mâché.

Core style system to preserve:

molded paper-pulp object body,
reinforced shell logic,
chalk-glue smoothed surface,
polished finish,
gold/silver enrichment where relevant,
fine Kashmiri floral and Mughal-derived painted language,
rich high-contrast decorative color,
whole-object Kashmiri coherence.

Translate the image like this:

[MAIN OBJECT / MAIN FORM / MAIN SURFACE] becomes a Kashmir-papier-mâché-born decorative paper body built through molded containment, refined surface preparation, and integrated ornamental painting.

[SECONDARY SURFACES / SUPPORTING ELEMENTS] become supporting Kashmir papier-mâché presences obeying the same body-first and ornament-second logic.

[BACKGROUND / WORLD / SURROUNDING AREAS] becomes a Kashmir-papier-mâché-authored decorative environment rather than neutral realism or generic ornamental craft styling.

Keep:

paper-body identity,
reinforced shell,
smoothed polished skin,
fine painted ornament,
foil-enriched refinement,
rich decorative color,
Kashmiri paper-craft coherence.

Avoid:

flat painted-paper drift,
raw pulp craft drift,
souvenir-object styling,
ceramic/lacquer/wood confusion,
or a realistic world with Kashmir papier-mâché added afterward.

The final image must feel like the Kashmir papier-mâché tradition itself authored the full decorative object world.

Image-to-Image

Convert this source image into an authentic source-truth Kashmir papier-mâché world.

Preserve the source image's core subject count, structural readability, and main visual organization, but rebuild the entire image through true Kashmir papier-mâché grammar.

Replace ordinary image logic with:
molded paper-pulp object body,
reinforced shell structure,
chalk-glue smoothed surface,
polished finish,
gold/silver enrichment where relevant,
fine floral and Mughal-derived painted ornament,
rich high-contrast decorative-object color,
and full Kashmir papier-mâché coherence.

Do not simply add floral painting.
Do not merely make the object glossy.
Do not turn the source into generic decorative craft.

If the source contains figures, objects, architecture, or background, rebuild them through Kashmir papier-mâché object-surface logic:
contained molded paper bodies,
refined prepared skins,
ornament integrated into form,
and Kashmiri decorative coherence.

Do not leave the environment as neutral realism.
Do not make it behave like boutique décor, gift-shop craft, or painted wood/lacquerware.

The final image must feel like a genuine Kashmir papier-mâché world, not a modern image decorated with floral ornament and metallic accents.

V2 — Artisan Translation

Universal Hard Prompt

Create an image in V2 = authentic handcrafted dimensional translation of Kashmir papier-mâché.

This is not a literal product mockup.
This is not a decorative box render.
This is not gloss-only upgrade.
This is not boutique décor styling.

This is not a prettier floral object with weak structural logic.

Preserve the same deep Kashmir papier-mâché grammar unchanged:
molded paper-pulp object body,
muslin and gutchi reinforced shell,
chalk-glue smoothed surface,
polished finish,
gold/silver enrichment where relevant,
fine Kashmiri floral and Mughal-derived painted language,
rich high-contrast decorative color,
and whole-object Kashmiri paper-craft coherence.

Now re-author that same grammar into a richer, more inventive, more dimensional 2D + 3D hybrid image-form.

The added dimensionality must come from Kashmir papier-mâché's own logic:
contained molded body,
shell thickness and structural stability,
surface preparation becoming more tactile but still refined,
ornament becoming more embedded into the polished skin,
foil and paint becoming more materially integrated,
and the entire object feeling more fully authored by Kashmir papier-mâché intelligence rather than product realism.

Do not only improve gloss.
Do not only increase realism.
Do not only add ornament density.
Transform the full image logic:
form,
construction,
grouping,
silhouette,
objects,
environment,
spatial organization,
and full-frame visual language.

If figures appear, they must not remain generic realistic figures decorated with floral motifs.
They must become Kashmir-papier-mâché-born presences:
face logic shaped by contained ornamental-object simplification,
body logic shaped by molded shell containment and polished skin hierarchy,
silhouettes built through decorative object-form logic rather than realism-first anatomy,
objects and props translated into the same molded-and-painted Kashmiri system.

If environment appears, it must not remain neutral realism.
It must already begin to feel re-authored by Kashmir papier-mâché:
contained object-surface world logic,
polished decorative skin,

ornament integrated into body,
foil-enriched refinement,
not just normal scenery with painted objects somewhere inside it.

Believable depth must come from Kashmir papier-mâché itself,
not from default realism,
not from décor rendering,
not from generic 3D craft shading.

Keep:
source-rooted Kashmir papier-mâché identity,
molded body logic,
reinforced shell authority,
surface-preparation intelligence,
creative artisan translation,
ornament integrated with form,
full-frame style control.

Do not allow:
product mockup logic,
souvenir-object styling,
ceramic/lacquer/wood drift,
flat decorative-painting drift,
generic ornamental-luxury language,
or a normal image underneath with Kashmir papier-mâché decoration added later.

The final result must feel like Kashmir papier-mâché itself has creatively re-authored the image into a richer, more dimensional, more inventive decorative object world while still remaining fully Kashmir-papier-mâché-born.

Reusable Variable Template

Create [SUBJECT / SCENE / DECORATIVE OBJECT WORLD / ORNAMENTAL PAPER-CRAFT FIELD] in V2 = authentic handcrafted dimensional translation of Kashmir papier-mâché.

Preserve these unchanged deep style-core rules:
molded paper-pulp object body,
reinforced shell logic,
chalk-glue smoothed surface,
polished finish,
gold/silver enrichment where relevant,
fine Kashmiri floral and Mughal-derived painted language,
rich high-contrast decorative color,
whole-object Kashmiri coherence.

Translate the image like this:

[MAIN OBJECT / MAIN FIGURE / MAIN FORM] becomes a Kashmir-papier-mâché-born dimensional presence built through molded containment, refined shell preparation, and integrated ornamental skin.

[SECONDARY FIGURES / OBJECTS / SUPPORTING ELEMENTS] become supporting Kashmir papier-mâché presences governed by the same body-first and ornament-second system.

[ENVIRONMENT / BACKGROUND / WORLD] becomes a creatively re-authored Kashmir papier-mâché space where grouping, depth, and spatial rhythm come from contained decorative object logic rather than neutral realism.

Increase:

dimensional presence,
body-to-surface relation,
shell clarity,
ornament-to-form integration,
foil and paint material richness,
prestige-craft refinement,
inventive Kashmir papier-mâché world-building.

Do not lose:

paper-body identity,
reinforced shell logic,
smoothed polished skin,
Kashmiri floral/Mughal language,
rich color force,
whole-object Kashmir papier-mâché control.

Avoid:

product render logic,
rough pulp drift,
boutique décor styling,
ceramic/lacquer confusion,
souvenir-object language,
or a realistic world with Kashmir papier-mâché added afterward.

The final image must feel like the same Kashmir papier-mâché grammar has been creatively translated into a richer, more dimensional, more scene-capable visual form.

Image-to-Image

Convert this source image into a V2 authentic handcrafted dimensional Kashmir papier-mâché world.

Preserve the source image's main action, subject count, pose relations, and overall readability, but rebuild the entire image through Kashmir papier-mâché grammar translated into a richer, more dimensional, more inventive hybrid image-form.

Replace ordinary image logic with:
molded paper-pulp body,
reinforced shell,
chalk-glue smoothed surface,
polished finish,
gold/silver enrichment where relevant,
fine Kashmiri floral and Mughal-derived ornament,
rich high-contrast decorative color,
and full-frame Kashmir papier-mâché coherence.

Do not simply add floral painting.
Do not just make the surface more luxurious.
Do not make it a decorative-object render.

Rebuild the image so that:
forms are organized through Kashmir papier-mâché's own molded-body and polished-surface logic,
depth comes from shell containment and ornament integration,
objects and environments begin to behave like a Kashmir-papier-mâché-authored world,
and the whole frame feels generated by Kashmir papier-mâché itself rather than realism with floral decorative craft added on top.

If figures appear, rebuild them as Kashmir-papier-mâché-born presences rather than generic bodies decorated with surface motifs.

If environments appear, rebuild them through Kashmir papier-mâché visual ontology rather than neutral realism.

The final image must feel like a true creative artisan translation of Kashmir papier-mâché into a richer dimensional decorative-object world, not a normal image with floral painted craft styling.

V3 — 3D / Realistic / Cinematic Translation

Universal Hard Prompt

Create an image in V3 = fully resolved believable real-world 3D translation of Kashmir papier-mâché while keeping the same source grammar unchanged.

This is not realism replacing style.
This is not boutique décor realism.
This is not luxury product photography.
This is not ceramic or lacquerware realism.

This is not a normal world with Kashmiri ornament added afterward.

Preserve the same deep Kashmir papier-mâché grammar unchanged:
molded paper-pulp object body,
muslin and gutchi reinforced shell,
chalk-glue smoothed surface,
polished finish,
gold/silver enrichment where relevant,
fine Kashmiri floral and Mughal-derived painted language,
rich high-contrast decorative color,
and whole-object Kashmiri paper-craft coherence.

Now push that same grammar into its most complete, most fully embodied, most fully resolved, most fully inhabitable dimensional world state.

The entire visible world must be generated by Kashmir papier-mâché logic.

That means the transformation must affect everything:

faces,
bodies,
hands,
feet,
hair,
posture,
gesture,
props,
objects,
ground,
architecture,
plants,
sky treatment,
empty space,
environment rhythm,
foreground,
midground,
background,
and the full-frame visual language.

Nothing important may remain generic realism.

Kashmir papier-mâché must control reality through its own logic:
molded paper containment,
reinforced shell stability,
smoothed and polished decorative skins,
integrated gold/silver refinement,
fine floral and Mughal-derived ornament,
rich high-contrast object-surface color,
and full-world Kashmiri decorative-object ontology.

Believable here must mean:

believable volume,
believable spatial relation,
believable material embodiment,
believable environmental completion,
believable inhabitable world logic.

It must not mean:

showroom-object realism,
gift-object photography,
ceramic luxury styling,
lacquered décor language,
generic ornamental-object realism,
or realism-first image making.

If figures appear, they must be fully Kashmir-papier-mâché-born:

face construction shaped by contained ornamental-object simplification,
body logic shaped by shell containment and polished skin hierarchy,
silhouette logic shaped by decorative object structure rather than realism-first anatomy,
gesture and posture integrated into the same Kashmir papier-mâché world system.

If environment appears, it must also be fully Kashmir-papier-mâché-born:

ground, structures, objects, space, and atmosphere must all belong to one uninterrupted
Kashmir papier-mâché world,
not a normal realistic environment underneath.

If you remove decorative cues, the image should still feel Kashmir papier-mâché through:

form construction,
body logic,
object logic,
environment logic,
spatial organization,
molded-body and polished-surface grammar,
and full-world visual ontology.

Keep:

same deep Kashmir papier-mâché grammar,
full world embodiment,
full environmental completion,
stronger figure-ground hierarchy,
stronger spatial separation,
stronger material presence,
stronger total-frame style control.

Do not allow:

boutique décor realism,
product-shot styling,

ceramic/lacquer drift,
generic luxury ornamental-object language,
souvenir-craft behavior,
or any second object language stronger than Kashmir papier-mâché.

The final result must feel like Kashmir papier-mâché itself has taken over the whole visible world and fully generated reality through Kashmiri molded-paper ornamental logic, not like realism with Kashmiri decoration.

Reusable Variable Template

Create [SUBJECT / SCENE / OBJECT / WORLD] in V3 = fully resolved believable real-world 3D translation of Kashmir papier-mâché.

Keep these unchanged deep style-core rules:

molded paper-pulp object body,
reinforced shell logic,
chalk-glue smoothed surface,
polished finish,
gold/silver enrichment where relevant,
fine Kashmiri floral and Mughal-derived painted language,
rich high-contrast decorative color,
whole-object Kashmiri coherence.

Translate the image like this:

[MAIN FIGURE / MAIN OBJECT / MAIN FORM] becomes a fully embodied Kashmir-papier-mâché-born presence generated through molded containment, polished skin, ornament integration, and full decorative-object world control.

[SECONDARY FIGURES / OBJECTS / SUPPORTING ELEMENTS] become equally style-born Kashmir papier-mâché presences.

[ENVIRONMENT / BACKGROUND / WORLD] becomes a complete inhabitable Kashmir papier-mâché world where spatial structure, environmental rhythm, and full-scene organization are all controlled by the same Kashmiri paper-craft grammar.

Increase:

full world embodiment,
full environmental translation,
stronger spatial relation,
stronger figure-ground separation,
stronger material presence,
stronger world coherence,
stronger full-frame Kashmir papier-mâché control.

Do not lose:

paper-body identity,
reinforced shell,

smoothed polished skin,
foil-enriched refinement,
Kashmiri floral/Mughal ornament,
rich decorative color,
whole-world Kashmir papier-mâché ontology.

Avoid:
décor realism,
product styling,
ceramic/lacquer confusion,
generic ornamental luxury language,
souvenir-object drift,
or a normal world with Kashmir papier-mâché added afterward.

The final image must feel like the same deep Kashmir papier-mâché grammar has fully generated an entire believable world.

Image-to-Image

Convert this source image into a V3 fully resolved believable real-world Kashmir papier-mâché world.

Preserve the source image's main action, subject count, pose relations, and readable structure, but rebuild all visible forms through fully embodied Kashmir papier-mâché grammar.

Replace ordinary realism with:
molded paper-pulp body,
reinforced shell structure,
chalk-glue smoothed surface,
polished finish,
gold/silver enrichment where relevant,
fine Kashmiri floral and Mughal-derived ornament,
rich high-contrast decorative color,
and full-world Kashmir papier-mâché coherence.

Do not simply place painted objects into the frame.
Do not just enrich gloss and ornament.
Do not leave the environment generic.

Rebuild the full image so that:
faces, bodies, objects, props, and environment all belong to the same Kashmir papier-mâché ontology,
depth comes from Kashmir papier-mâché's own molded containment, shell logic, and ornament-to-surface integration,
space is organized through refined decorative-object logic,

the world becomes fully inhabitable but remains completely Kashmir-papier-mâché-born, not realism-first.

If any part of the frame remains normal realism underneath, the conversion has failed.

The final image must feel like Kashmir papier-mâché itself has fully generated the entire visible world, not like a normal image decorated with Kashmiri floral painted ornament.
